Cómo resolver un laberinto

- Empieza en el hueco marcado SALIDA, en la parte superior del laberinto.
- Dibuja una línea por los caminos abiertos hasta el hueco marcado META, en la parte inferior.
- No se pueden cruzar las paredes. Si llegas a un callejón sin salida, vuelve atrás y prueba otro camino.
- Cada laberinto tiene exactamente un camino de la salida a la meta.
- Las soluciones están al final del libro.

Laberinto 1
