Come risolvere un labirinto

- Parti dall’apertura segnata PARTENZA, in alto nel labirinto.
- Traccia una linea lungo i percorsi aperti fino all’apertura segnata ARRIVO, in basso.
- Non si possono attraversare i muri. Se arrivi a un vicolo cieco, torna indietro e prova un’altra strada.
- Ogni labirinto ha esattamente un percorso dalla partenza all’arrivo.
- Le soluzioni si trovano alla fine del libro.
