So lösen Sie ein Labyrinth

- Beginnen Sie an der Lücke mit der Aufschrift START am oberen Rand.
- Zeichnen Sie eine Linie durch die offenen Wege bis zur Lücke mit der Aufschrift ZIEL am unteren Rand.
- Wände dürfen nicht überquert werden. Wer in einer Sackgasse landet, geht zurück und probiert einen anderen Weg.
- Jedes Labyrinth hat genau einen Weg vom Start zum Ziel.
- Die Lösungen finden Sie am Ende des Buches.
