How to solve a Nonogram

- Shade squares to reveal a hidden picture.
- The numbers beside each row and above each column give the lengths of the runs of shaded squares in that line, in order from left to right and from top to bottom.
- Runs are separated by at least one empty square. A line marked 0 stays empty.
- Mark squares you know are empty with a small dot. Every puzzle has exactly one solution and can be solved line by line, without guessing.
- The answers are at the back of the book.
