How to play Sudoku

- Fill every empty square with a digit from 1 to 9.
- Each row, each column and each of the nine 3 × 3 boxes must contain every digit from 1 to 9 exactly once.
- Start where a row, column or box is nearly full, and look for the one place a digit can go.
- Every puzzle in this book has exactly one solution, and you can reach it by logic alone, without guessing.
- The answers are at the back of the book.
